

ANNOUNCING... **FREE PET MICROCHIPPING** **AT THE 2010 ARIZONA ANIMAL FAIR**

Provided by The Center for Animal Rescue and Adoption

A Dog-Gone Great Deal!

- The first 200 people who come by our tent for microchipping of their dog or cat will receive a 24PetWatch microchip and lifetime registration for FREE!
- After we run out of free microchips, we will offer discounted microchips for just \$5 each. This is basically our cost to purchase them from the manufacturer.

Why Are We Doing This?

- Fewer than 10% of all animals ending up at Pima County animal shelters are reclaimed by their owners.
- Microchipping is one way to help reunite lost pets with their homes. By increasing the shelter redemption rate, we hope that we will be able to save more animals.

The Purr-motion Details...

- To participate in this promotion, you must be present at the Arizona Animal Fair.
- Microchipping will be done on-site by our veterinary professionals for those bringing their dog (or cat) to the fair with them. For those who leave their pets at home, we will instead provide a coupon for the free or discounted microchip redeemable at our new "Spay More Animals" community spay/neuter clinic when it opens in the spring.
- In the unlikely event that we run out of microchips at the fair, clinic coupons of equal value will be substituted.

The Center for Animal Rescue and Adoption is proud to be the exclusive microchip provider of the 2010 Arizona Animal Fair!
